

About Us

Basically you could say that we have it made!

I teach computer classes for adults at a small school in rural Pennsylvania. I am married to a wonderful

woman, Jenny, who is the love of my life and my inspiration. Jenny works for a program that helps adults make a new start in life by teaching them about self-esteem and how to go about obtaining the job skills required to make it in today's business world. So we both have jobs helping other people, which is very rewarding. We aren't rich monetarily, but we have everything we need. We *are* rich in spiritual gifts. Jenny is a lay preacher for several local churches (there seems to be a shortage of ordained ministers), and I enjoy singing for the Lord on occasion. Our children are healthy and happy and we thank the good Lord for His wonderful blessings every morning when we pray together. Sure... we still complain sometimes, but we know that we have been very richly blessed indeed. My father passed away very unexpectedly a couple of years ago (he was 68 years old and seemingly in good health). But it wasn't until Jenny lost her father earlier this year that I got the idea of creating images of our loved ones in the clouds. Those first pictures gave us some peace and joy, but when Jenny came up with the idea to put Jesus in the picture...well... it was just awesome.

What would I do without her? It was great to see our loved ones together with *each other* and Jesus. It is really a joy to see them *all* together. Even our relatives who never met here on Earth are together now in heaven, and we just love putting them all together in our pictures. Soon we were making pictures for all our friends and relatives. It is such a wonderful feeling to know that we have provided some peace and joy to someone who is hurting. We hope we can create a special picture for you.

Thanks for your interest in *Heavenly Images*.

God bless you,
Barry & Jenny Barnes
